ASME Certification 360 Workshops

Applying ASME Global Standards and **Enhancing Public Safety**

May 19, 2017, 8:30 AM - 4:30 PM INTI Auditorium - Avenida General Paz 5445, entre Av. Albarellos y Avenida de los Constituyentes **Buenos Aires, Argentina**

ASME Conformity Assessment certification is a clear indication of your organization's commitment to quality and public safety. ASME Certification 360 Workshops are an opportunity for the certification community to gain insight into the policies and procedures of the ASME Certification and Accreditation Programs. Registration to

attend this workshop is free of charge BUT seats are limited so register now.

At this Certification 360 Workshop you'll learn how to best prepare for the certification or renewal process. You'll gain insights into the value of ASME certification and on how to leverage it in global markets. The workshop also covers high-profile topics related to the design, fabrication, and stamping of code items. Visit go.asme.org/Argentinaworkshop for more information and to register.

Please forward this email to others in your organization who may wish to attend.

Who Should Attend?

- ASME Certificate Holders (QC/QA Personnel)
- Authorized Inspection Agencies
- Government Agencies
- · Companies interested in becoming certified
- Companies interested in obtaining ASME certification, possibly with a government subsidy.

How Will Workshop Participants Benefit?

- Understand the certification and renewal process
- Take away best practices to prepare for a survey/review
- Learn the roles of all major players in the certification process
- Ask questions of and interact with official ASME representatives
- Network with certificate holders and others in the field who are committed to enhancing public safety
- Estimate cost associated with obtaining and renewing certification

Build credibility and gain visibility within the certification community

Questions?

Please send all questions about this ASME Certification 360 Workshop to James Ramirez at ramirezi@asme.org.
